

ABINASH OJHA

Senior Project / Program Manager | Application & Enterprise Delivery | AI Transformation | 12+ Years

+91-9019039029 | abioojha@gmail.com | Bengaluru, India

Leadership • Strategic Thinking • Stakeholder Collaboration • Innovation-Driven • Decision Making • Adaptability

PROFESSIONAL SUMMARY

Senior Project/Program Manager with 12+ years leading cloud, cybersecurity, data migration, and digital transformation programs for global enterprises including HSBC, KPMG, Dell, and Fortune 500 clients. Managed \$1M+ portfolios, distributed teams of 20+, and enterprise-scale delivery across banking, fintech, consulting, and technology sectors. Experienced in AI-enabled project delivery, governance, stakeholder management, and business transformation.

Brings hands-on experience applying AI-assisted tools to project workflows - improving reporting efficiency, risk visibility, and stakeholder communication. Core strength - breadth of domain expertise spanning cloud migration, cybersecurity, data platforms, and Agile delivery across 6+ industry verticals.

All experience represents consulting assignments, client deployments, or contract-based transformation programs delivered for enterprise customers.

CORE SKILLS & COMPETENCIES

Program Leadership

Program Management • Agile Delivery • Portfolio Governance • Budget Forecasting • Risk Management • Scrum • Change Management • Technical Stakeholder Management • KPI Tracking • Vendor management

AI & Transformation

AI-enabled PMO • Copilot Adoption • Generative AI Governance • Generative AI Adoption • AI-Assisted Delivery • Agentic AI • Process Automation • Digital Transformation • Prompt Engineering

Tools, Tech & Platforms

Jira • MS Project • Azure DevOps • Confluence • REST APIs • Tableau • VSTS • Cloud Migration (AWS, Azure, GCP) • Cybersecurity • Data Platforms • APIs & Integration • Digital Products • Clarity • MS Copilot/Claude AI/ChatGPT • Appian

KEY ACHIEVEMENTS

- Delivered 20+ enterprise programs across banking, consulting, cloud, and cybersecurity domains.
- Managed portfolios exceeding \$1M. Led global teams across UK, APAC, and India.
- Generated \$300K+ annual savings through operational optimization. Reduced critical incidents by 25%.
- Designed and deployed an AI-enabled PMO Assistant Agent that provided process guidance, onboarding support, and delivery artifact assistance for project teams, reducing operational support overhead by 3–4 hours weekly and accelerating team ramp-up.

PROFESSIONAL EXPERIENCE

Senior Project Manager | BCT Consulting — KPMG India

Oct 2025 – Present

Consulting deployment | 3 concurrent Advisory IT programs | Cross-functional teams of 10–15 members

- Managed end-to-end implementation of 3 concurrent Advisory IT programs including planning, sprint execution, stakeholder management, release coordination, risk tracking, and user adoption support - from initiation through go-live for KPMG Advisory IT clients and cross-functional business teams of 10 - 15 clients.
- Introduced AI-assisted status reporting (MS Copilot/Claude AI) to streamline weekly reporting across 5 workstreams, reducing report preparation time from 3.5 hrs to under 1 hr per cycle.
- Implemented structured prompt workflows for meeting summaries and action-item tracking, cutting post-meeting documentation effort and improving stakeholder follow-up turnaround from 24 hrs to under 4 hrs.
- Deployed AI-assisted risk log reviews using structured prompt templates, reducing manual triage effort and improving issue detection lead time across active delivery tracks.
- Manages project operating costs, budget reallocation, and executive stakeholder reporting with full artifact lifecycle governance and compliance checkpoints. Managed delivery pipelines and sprint governance via Azure DevOps across 3 distributed teams.

Technical Program Manager | Purview Consulting — HSBC Bank

Oct 2024 – Sep 2025

Consulting deployment | 4 global programs | Distributed teams across 3 time zones | \$1M+ combined budget

- Led portfolio of 4 programs covering platform development, cloud migration, and cybersecurity for HSBC — managing delivery teams of 12–18 members across UK, India, and APAC.
- Implemented in-house alerting system across the HSBCNet Estate, eliminating third-party tool dependencies and delivering approximately \$300K in annual cost savings.
- Improved KCI and P1 controls through structured incident governance and proactive risk frameworks, contributing to a 25% reduction in P1 incidents over two delivery quarters.
- Oversaw delivery of cybersecurity programs and middleware integration projects across HSBCNet estate, ensuring monitoring requirements, P1 incident governance to resolution and operational SLAs were embedded from build through run phase.

- Partnered with architects on cloud migration planning and platform modernization. Led API integration strategy across multiple systems. Facilitated technical design reviews and architecture governance.

Delivery Manager | Acuity Knowledge Partners

Dec 2022 – Feb 2024

Client engagement — US Retail Bank | Cross-functional delivery team | Contract program completion

- Engaged with a US retail bank on a migration project to transition the financial data hub from SAP to NICE, supporting end-to-end program delivery across all phases including the incident, problem and change requests.
- Managed product delivery of data pipelines re-routed from new source systems, ensuring accurate data flow, quality validation, and timely handoff across downstream consumers.
- Led cross-functional delivery teams comprising frontend, backend, QA, DevOps, business analysts, and product stakeholders.

IT Project & Program Manager | Thoucentric Technology Pvt Ltd.

Dec 2020 – Dec 2022

Multi-client engagement | \$7.2Bn client portfolio | 20-member distributed delivery team

- Managed digital transformation programs across a \$7.2Bn client portfolio — delivered 1.5% cost savings and 34% improvement in contract automation; led a 20-member distributed team across 2 geographies.
- Established Scrum practices and led enterprise-wide Agile adoption across 4 tech teams; optimized CI/CD pipelines and reduced average sprint release cycle times.
- Owned end-to-end customer satisfaction, service transition planning, and savings analysis across complex contract ecosystems spanning multiple geographies.

Project & Product Manager | Team Manager | Datamatics Digital Ltd.

Sep 2018 – May 2020

Multi-client delivery | 6 concurrent projects | Team of 12 | AWS cloud-native stack

- Delivered 6 concurrent projects for ITD, Bounce (MetroBikes), NetCore, KoreWireless, and Adani Capitals — managing a team of 12 as Scrum Master with full AWS stack ownership.
- Delivered IoT tracking platform, smart push notification SDK, and MetroBikes smart lock and pooling app features — all within committed timelines and budgets.

EARLIER CAREER (2011 – 2018)

NowFloats Technology | Technical Project Manager (May–Aug 2020)

Assessed technology feasibility, managed cross-functional coordination across marketing, sales, and tech teams for rapid product delivery.

Dream Orbit Softech | Product Manager (Apr–Sep 2018)

Owned product roadmap for US HOA Property Management platforms (FrontSteps, Dwelling Live, Nest). Led client requirement gathering, UI/UX wireframing, API definition, and release planning.

Dell Inc. (Allegis Group) | Technical Project Manager (Jun–Oct 2017)

Managed internal business infrastructure projects via Agile/Kanban using TFS. Provided Scrum coaching across business units and development teams.

PromptCloud Technology | Program Manager (Jul 2016–Feb 2017)

Led strategy and execution of core scraper intelligence programs; drove continuous delivery improvements and Agile compliance across high-performing Scrum teams.

OpCord Consultancy Services | Sr. Software Engineer (Feb 2011–Feb 2014)

Delivered backend REST APIs and data aggregation for RideAlly & CommonFloor AMS; supported development, QA, visual analytics, and UAT phases.
